

Light from Africa Foundation

Lighting flames of creativity and hope in young lives

The Light from Africa Foundation (LFA) is a non-profit organisation committed to empowering vulnerable communities—both youth and adults—through education, skills development, and creative outreach. For over 20 years, LFA has been working to break barriers to learning and provide opportunities for personal and professional growth.

LIGHT FROM AFRICA FOUNDATION'S SUSTAINABILITY PLAN 2030

Empowering South Africa's School Leavers for a Sustainable Future

The Challenge:

South African youth face a severe unemployment crisis, with 45.5% of those aged 15–34 and 60.8% of those aged 15–24 jobless (Stats SA, 2024). Limited education, financial struggles, and social challenges worsen their prospects, reinforcing cycles of poverty.

Our Sustainability Proposal:

We propose four funding initiatives:

1. Renewable energy projects,
2. Agricultural employment and training,
3. SMME commercialisation support, and
4. Rural infrastructure upgrades to drive economic growth.

The Solution:

We are building a sustainable future where young people can break the cycle of poverty and inequality. By 2030, we would have successfully:

- Expanded our bursary programme, supporting more students in higher education
- Offer vocational, digital, and industry-specific programmes.
- Boost Learnerships & Internships by partnering with businesses for workplace exposure.
- Support Youth Entrepreneurs by launching incubation programmes for startups.
- Promote Mental Well-being by strengthening emotional resilience and life skills.

Join Us in Creating a Future of Possibility

Your support can empower the next generation with the tools they need to succeed, ensuring brighter futures for individuals and stronger, more resilient communities.

Partner with us today! Let's work together to create sustainable solutions that uplift and empower South African youth.
